SUMMARY

Seeking position as a Software Engineer, bringing passion for learning and understanding combined with knowledge in front-end & back-end development.

SKILLS

Languages: JavaScript, Python, SQL, HTML, CSS
Front-End: React, Redux, XML/JSON, Bootstrap, jQuery
Back-End: Node.js, Express, Flask, REST, Solidity
Databases: PostgreSQL, SQLAlchemy
Development & Deployment: Git, GitHub, Heroku

EXPERIENCE

Blockchain Center - Software Development Internship
Responsible for various aspects of blockchain technology development, including:
- Developing decentralized applications
- Writing smart contracts
- Connecting real world data to the blockchain

PROJECTS

KitchenMenu
Mar. 2021 to Apr. 2021
Description: Full-stack React & Express application that makes calls to the Spoonacular API to allow users to search for recipes to make and track the meals they end up eating. They can filter their results by macronutrient quantities, dietary restrictions and selected ingredients.
Tools Used: React, Node.js, Express, PostgreSQL, AJAX, jQuery, JS, Material-UI, HTML, CSS

MTG Deck Builder
Sept. 2020 to Oct. 2020
Description: Full-stack Python & Flask application that allows users to create their own decks with any Magic: The Gathering cards from the MTG API.
Tools Used: HTML, CSS, Python & JS, jQuery, AJAX, Bootstrap, Flask, PostgreSQL, SQLAlchemy

EMPLOYMENT

Gold's Gym
Business Development Associate · Dec. 2018 to Current · Asheville, NC
- Recognized by company as a top producer for the district
- Cultivated strong relationships with new clients, while maintaining existing client relationships
- Worked closely with staff across departments to implement growth strategies
- Regularly developed a clear understanding of clients' needs and identified what resources would best serve them

EDUCATION

Springboard
June 2020 to Apr. 2021
Software Engineering Career Track, Certificate 2021
700+ hours of hands-on course material, with 1:1 industry expert mentor oversight, and completion of 4 in-depth portfolio projects. Mastered skills in front-end web development, back-end web development, databases, and data structures and algorithms.
